

# Project storyboard

⑦ Now you know that the closest vending machine to him is two blocks away that offers some delicious food to eat.

⑧ After that select the item you need to eat add to cart. Pay through money or credit card. then go to pick the items you ordered.  
(As the application is a perfect use in quarantine as all the shopkeeper closes their shop early and there is a lockdown situation, the vending machine is the best solution you can get).

- ⑨ Alien is heading towards the vending machine to pick up the items that he ordered.

- ⑩ Alien reached to the machine and here he uses his mobile to scan the bar code reader so the machine can recognize the user (Alien) and give the items alien ordered early.

Now Alien came back to home and enjoy in the the COVID situation where it's hard to get something after midnight.
